

Microsoft Entra

Simplify identity and access management

Governance and Compliance

Protect access to any app or resource for any user. Verify and secure every identity and every access request. Discover permissions and govern access - all in one place!

Permissions Management

Provides visibility and control over permissions for any identity or resource in any cloud.

Workload Identities

Helps secure identities for apps and services and their access to cloud resources.

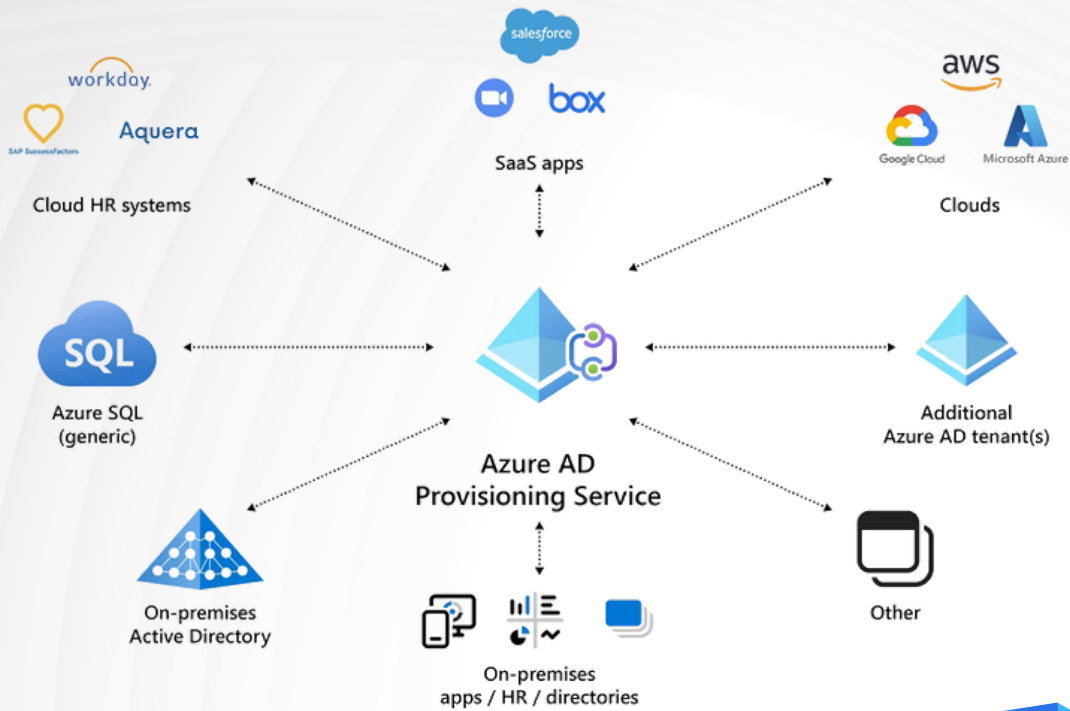

Identity Governance

Automatically ensure that the right people have the right access to the right apps at the right time.

The Challenge

Identity can carry risk with over privileged access that goes unnoticed. Detecting risk and compromised identities can be impossible. Identity lifecycles are often difficult to manage.

How Entra Can Help

Usage analytics ensure identities have the right permissions at the right time. Detect and respond to compromised identities. Automate access to apps and services.

Our Implementation Approach (2-5 weeks)

- Define your project scope
- Collaborative planning & design sessions
- Identify operational strategy
- Define portal roles and responsibilities
- Enable multi-stage access reviews
- Govern access to applications
- Provision entitlement access packages
- Integrate lifecycle workflows into HR HCM
- Create lifecycle workflows
- Create automated lifecycle task extensions
- Review permissions management
- Knowledge transfer and know-how
